cent. Richard Strauss is represented as the valet of a German General. He is shining the General's shoes when Edmond Rostand, the French poet, who by the war is made an errand boy, comes in with a message from the French General. The old friends clasp one another and Strauss sits down to compose the music for Rostand's 'Hymn of Hate' against Germany. The German General finds them engaged in this pursuit and is properly horrified, but a voice from somewhere informs the audience that the slightest. informs the audience that the slightest whisper of the Muse is louder than the roar of the cannon, and that one touch of art makes the whole world kin. of the Missouri, Oklahoma and Gulf Railroad, holding the law void. Solicitor-General Davis told the court that it "reached the heights of imagination' to say that the primary object of Congress in passing the law was not to limit the hours of toll. He asserted BRECKINRIDGE CASE throughout the strike controversy, often than admitted that fact, as well as that the law is workable, now denied by the

Claims Power to Fix Wages.

When Mr. Davis cited Congress disturbance of railroad contracts in passing the Federal employers' liability act, upheld as valid, Justee Day asked

"Do you claim the same power in fix-ing wages as in fixing rates?" "We do." Mr. Davis replied. "I can't follow that argument," interjected Chief Justice White. "The sub-ject is regulating hours of service. The Government has regulated commerce for ages, so to speak. It was held in the case of the employers' liability act that that regulation was valid. That was no decision that the Government has the power to regulate wages."

The Solicitor-General argued that if Congress can regulate the relation of Congress can regulate the relation of master and servant, of railroads and employees, it can also regulate wages. "That is the most vital of all," he continued. "If underpaid and discontented, safety of commerce in charge of em-ployees is affected. Also, wages have a direct relation to rates, investment and expense of service."

Congress's Power Discussed.

"Your proposition goes further than that," said the Chief Justice. "Do you intend that wages of all persons mak ing these goods are subject to regula-"No, we don't go that far," said M:

"Has Congress the power to prescribe what railroads shall pay for various things—locomotives, land, &c.?" asked Justice McReynolds.
"I am not so, sure that Congress."

"I am not so sure that Congress hasn't that power," Mr. Davis replied. "All authority is dependent upon its reasonable and not arbitrary use."

Justice Day suggested that Congress's power is limited by constitutional pro-hibition against confiscation. "Congress's power to regulate issue of railroad stocks and bonds." Mr. Davis continued, "and to say what price rail-roads shall pay for credit is being ad-vanced in and outside of Congress." He added that under the decision in the Debs case Congress has authority to pre-vent railroad strikes and obstruction of interstate commerce. He denied that
